For Grades PreK-1

[Let's Draw: Everyday Learning](#)

It's easy for young students to talk about their own artwork, but what about someone else's? In this animation students take a tour of a classroom gallery as a boy describes his own and his classmates' drawings.

For Grades PreK-1

[Snack Hacks: Banana Butterflies](#)

Snack Hacks are fun healthy recipes to make with your child that provide positive experiences with healthy foods. Spend some quality time together while building science, reading, and math skills. This snack makes your tummy FLUTTER with happiness!

For Grades 4-6

[Dragonfly TV: Butterfly Wings](#) & [Dragonfly TV: Butterfly Wings Activity](#)

Emily and Julie are crazy about butterflies! They decided to take a trip to the Butterfly House at the North Carolina Museum of Life Sciences. While they were there, they saw lots of different kinds of butterflies including a Blue Morpho. The Blue Morpho has wings that are able to change color between blue and green. Their question: how is a Blue Morpho butterfly able to change the color of its wings?

For Grades 6-12

[Outdoor Nevada: Butterflies](#)

In this video from Vegas PBS, host Brian Wignall and two butterfly experts discuss butterfly species commonly found in the Nevada wilderness. Among the topics they discuss are the best time of year to see butterflies in Nevada, the means by which they protect themselves from predators, how weather conditions and daylight affect their flight, their longevity, and the distances some travel to and from their wintering grounds.
