

Learn at Home with PBS KIDS

Sharing Your Creativity BINGO

Learn at Home with PBS KIDS

**Week of
December 21st**

Hello, Families!

Welcome to **Learn Along Bingo!** We're happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With Learn Along Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

It's Sharing Your Creativity Week!

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

Learning Spotlight: Developing New Artistic Ideas

This week, we're learning how envisioning and developing new artistic ideas helps us to express our thoughts and feelings in different ways.

Show What You Know: More Than a Box

The last activity in this packet is a perfect way for children to share new artistic ideas.

Tune in: Watch NATURE CAT at 12PM ET on Tuesday, December 22nd on the PBS KIDS 24/7 channel.

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at pbskids.org/video/livetv or on your local PBS station.

Happy learning!

Sharing Your Creativity

BINGO

Andy's Creation

Look at a picture in a book or an art piece. What do you notice about it?

Pop-Up Card

Make a salt painting. Draw a picture with glue, then cover it in salt. Let dry and then paint using watercolors.

More Than a Box

What can you make with yarn and sticks?

Invent a Creepy Cool Creature

Mix 4 cups flour, 1 cup salt, 1 1/2 cups water to make play dough. Knead and then roll it out. Cut into shapes and bake for 3 hours at 250°F.

Cosmic Combos

Grades 1-2

Cyberchase

ENGINEERING CHALLENGE

Materials

- 8½" x 11" paper, at least 3 sheets
- colored markers, pencils
- scissors
- glue

Make a Pop-Up Card

How do you make a card so the inside pops up when you open it? Try this!

Directions

- 1** Fold a piece of paper in half. Starting from the folded edge, make 2 parallel cuts as shown. The cuts should be the same length, and less than 1 inch apart.

- 2** Fold the flap back and crease it.

- 3** Put the flap back where it was. Open the card and push the flap through to the inside. Pinch the crease on the flap. This is a pop-up platform.
- 4** Cut out something you want to pop up. (Ideas: a tree, a house, a flower, a butterfly..) Glue it to the platform. Open and close your model. Do you see how it works?
- 5** Now use your model to experiment. How many pop-up flaps will you want for your card? What happens if you make some platforms with long cuts, and others with short cuts?

Get inventive with CYBERCHASE on PBS KIDS!
